

TECHNOLOGY IN ARBITRATION ARBITRATION IN TECHNOLOGY

Torino, Italy – 23 November 2018 (14:00 – 19:00 CET)

Venue

Fondazione dell'Avvocatura Torinese Fulvio Croce, Via Santa Maria, 1, 10122 Torino, Italy.

Objective

The Conference will focus on the interaction between new, cutting edge, technologies and arbitration and will discuss the impact of new technologies in arbitration as well as how arbitration can be the perfect tool to deal, in an efficient and cost-effective way, with disputes in the new technologies sector.

An outstanding keynote speaker and several practitioners from Belgium, Egypt, Italy, Spain and Switzerland will discuss the issues and great opportunities raised by the growing interaction between the world of cutting edge technologies and the world of arbitration and ADR.

This ICC YAF Conference will also be an ideal forum for young practitioners to exchange thoughts on international arbitration, and to enrich their network in the region.

Who should attend

- Young practitioners in the field of arbitration and ADR
- Researchers and engineers
- In-house counsels of public and private organizations operating in the new technologies and scientific research sectors
- Forensics and experts
